DECEMBER 2022 NEWSLETTER

## PRESIDENT'S MESSAGE

Welcome to our December edition of the NYSCA District 7 newsletter! As we wrap up our gifts we are also wrapping up the year. This is a good time to reflect on what we've accomplished in 2022 and what we would like to achieve in 2023.

Let's look at some of our big wins in 2022:

- We can start with ONBOARD, the Worker's Compensation online platform, which is designed to streamline paperwork, and serve as a useful dashboard to help keep your patients' progress easy to manage. Vice President, Robin Stein, and past President, George Rulli and other members worked tirelessly to educate us all on important deadlines to make sure we didn't miss a beat when billing Worker's Comp patients.
- We raised member awareness of electronic billing for Worker's Compensation, a time saver for sure, and a way to cut down on paper billing
- We presented numerous opportunities, via our monthly meetings and special events, to learn more about practice management, technique tips, marketing and spinal education from other chiropractors as well as spinal surgeons. All of this is designed to help you

## FROM THE EDITOR

Welcome to the December issue of NYSCA District 7's newsletter. I want to take the opportunity to thank Harlan for his outstanding presentation last month. He has been a long time supporter of our association on both the state and local level. Taking time out to educate and show us technology that can deliver proven results, the EmField Pro therapeutic device, was appreciated and well received. To find out more about how the High Energy Induction Therapy (HEIT) can generate magnetic fields of up to 3 Tesla and reach into the body up to 7 inches affecting nerve cells, blood vessels and bone give him a call; you can find his ad and website link on page 16.

During this time of celebration let us not forget about our colleagues who are under stress and suffering from illness. Dr. John Pellegrino has been an inspiration to me and a great friend to many on this board. He has served our profession, NYSCA and his community for decades. He is an excellent adjuster, a team player and a kind competent doctor. Keep him in your thoughts and prayers; his mailing address is 28 Sycamore Lane, Commack, NY 11725.

It has been "fun" editing this newsletter for the last 17 years; over 160 editions to date. My wife Denise has designed each of these newsletters to elevate the professional appearance of our profession and she has kept our branding consistent. She designed all of our district's event signage and event materials as well. She has never missed a deadline in spite of me and/or delays from our authors. Quarterly she also has done a beautiful job with the NYSCA's state publication as well. Thank you Denise you are a rock star! Her contact is dfacquet@gmail.com.

# The Baby Jesus Rule

*"You can't always get what you want"*

A Poem About Gifting - By JC Smith, MA, DC

The bedlam at Christmas  
is a sight sad to behold,  
tiresome for reasons  
that trouble the old.

Frantic parents belatedly buying gifts online,  
or last minute bedeviled  
in a crowded shopping mall,  
only to hear from kids on Christmas day,  
"Is that all?"

This yearly frustration leaves  
parents tired, bitter, and broke,  
Christmas has now become  
a very misguided and expensive joke.

The anticipation on their faces  
reveals both greed and joy,  
with images of gift cards,  
cell phones, and tons of toys.  
The real reason for the season  
children now seem to forget,  
is blurred by Santa Claus  
and the many gifts they get.

The new meaning of Christmas  
leaves me to ponder:

Has Santa Claus  
stolen the Baby's thunder?  
So, I asked myself,  
What would Jesus do?

The answer has been clear  
for 2,022 years,  
a tribute now fallen  
on children's deaf ears.

The wisdom of Three Wise Men  
with 3 gifts divine,  
is an example of giving  
that will do us just fine.

Now in my home,  
I invoke this rule:

If 3 gifts were good enough for Baby Jesus,  
then it is plenty for our Christmas Yule.  
So, this holiday season tell your kids,  
"3's the limit."

It will help you regain your sanity,  
save a ton of money, and for them,  
relive the true Christmas spirit.

Despite Santa's temptation with gifts galore,  
Remind your kids,

"It's Baby Jesus's birthday, not yours!"

If you still can't get no satisfaction,  
recall the [Rolling Stones](#) caroling their heed:

*"You can't always get what you want,  
But if you try*

*sometimes you find  
You get what you need."*

So, if the King of Kings  
was content with just three,  
that's all you need  
under your Christmas tree.

To make your holiday more pleasant this year,  
change the

reason for the season  
and follow the Baby Jesus Rule  
for Yuletide good cheer.

**Abstract:** Spinal manipulation began long before AT Still or DD Palmer developed their art and sciences in North America. The term ‘bone-setting’ was coined in 1510 in Europe and this skill was brought to colonial America by one famous family, the Sweets, making for interesting and humorous stories that included notable Americans from our country’s early history.

Another link to our Founding Fathers includes a similar sentiment about medical freedom espoused by Dr. Benjamin Rush, signer of the Declaration that was shared by both DD and BJ Palmer in their early writings. Ironically, it was medical iatrogenesis that led to the death of our first president, George Washington, when a pupil of Dr. Rush was at Washington’s bedside to perform bloodletting that attributed to his death.

**Following Terms:** History; DD Palmer; Sweet Family; Benjamin Rush; George Washington.

**Introduction**

This article is not about a law firm by the above name, but it is about a few figures and events from colonial America that are intertwined in an interesting fabric that have affected the history of chiropractic in one way or another, including the death of our first president.

**Sweet Bone-setters**

The art of manipulation certainly did not begin with either AT Still or DD Palmer. In fact, spinal manipulative therapy (SMT) has roots BC (before chiropractic) that reach back over 3,000 years ago to Imhotep, the Great Physician of the Pharaohs, who wrote of this healing art. (1) In Medieval Europe the term ‘bone-setters’ was coined in 1510. This skill was an art taught via hands-on training, not in schools, and generally kept secret by family members. (2)

There are many stories of immigrants from Europe who brought this skill with them to North America. Among the oldest and most notable family of bone-setters were the ‘Sweetest Sweet’ of South County, Rhode Island, who carried on this tradition in colonial America that has made for many interesting accidents. The goal of surgical intervention at OALI is to get patients back on their feet and enjoying an active lifestyle as soon as possible through the most minimally invasive surgeries and evidence-based medicine. With minimally invasive spine surgery (MISS), our surgeons use high-powered microscopes to operate through small incisions, minimizing trauma to the surrounding tissue. MISS allows for more precise intervention, reduced post-operative pain, faster recovery, and decreased scarring than traditional surgery. In fact, 4 out of 5 of our surgical patients are able to return home on the same day!

# Work Comp Corner with Dr. Rulli

## What do I do if I receive a C8.4?

A C8.4 is usually submitted by the carrier for a valuation issue; it does not trigger a hearing and must be dealt with by you or your office staff. Simply stated, it could mean your bills exceed the RVU and or the dollar amount that is allowed per visit. As a reminder that would be 12 RVU's per visit 15 RVU's for re-exams and 18 RVU's for new patients. So, if you billed 12.1 RVU's for a single visit that could trigger a C8.4. Sometimes the carrier might pay the visit, similar to NF and only deny the excess, but sometimes they might deny any visits that exceed that specific RVU value. My suggestion is to 1st call the adjuster and try and resolve the issue, second if your computer system allows; bill only the allowable RVU's per visit, and lastly is to file an HP-1. Many of you know by now that filing an HP-1 must be done through the WC medical portal. My personal experience has consisted of all these options, and my least favorite is the HP-1 process. Although it is an easier process than it used to be it delays payment which we all hate, and I have found the response time to be inconsistent. This process of dealing with many of the idiosyncrasies of comp when shared with each other make dealing with them much easier. When we share our experiences like we are doing here as part of the NYSCA, it makes the entire process easier. I wish each of you a blessed Holiday season filled with good health and family.

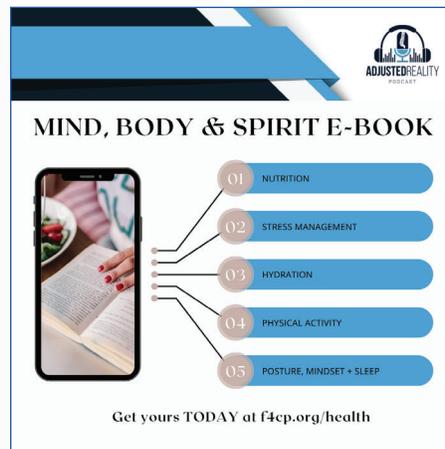

In today's episode, we welcome special guest Dr. Chris Zaino, a world-renowned speaker, author, entrepreneur and HERO.

After winning Mr. America in 1998, and being a leader in the fitness industry, he found himself defying a deadly disease in his late 20s. Dr. Zaino leveraged his experience to establish one of the world's largest health and wellness clinics, seeing thousands of patients per week.

Now an international speaker, author and mindset expert, Dr. Chris has shared his message of wholeness in mind and body over 4,430 times.

Tune in today to hear about his victory as Mr. America, his life-changing diagnosis and the drug-free pain management options in his healing journey.

# Did your small business have extra expenses as a result of the COVID-19 Pandemic?

If you can answer YES to the following questions, you may qualify for tax credits of up to \$25,000 from New York State's new COVID-19 Capital Costs Tax Credit Program!

- Does your business operate in New York State?
- Did you have \$2,500,000 or less of gross receipts in 2021?
- Does your business employ 100 persons or fewer?
- Did you make investments to comply with emergency orders, regulations, or to increase public safety in response to COVID-19?

**Example investments include, but are not limited to:**

- Purchasing supplies to disinfect or protect against COVID-19 transmission.*
- Installing hand sanitizer stations.*
- Erecting physical barriers to reduce contact.*
- Restocking perishable goods to replace those lost during COVID-19.*
- Installing air purifier systems.*
- Purchasing software, online payment platforms, point of sale equipment or other materials to facilitate contactless payment.*
- Purchasing materials to accommodate increased outdoor activity including heat lamps, outdoor lighting, and materials to create or expand outdoor spaces.*

## Don't wait to apply!

Awards for this \$250 million program, proposed by Governor Hochul and approved by the Legislature earlier this year, will be made on a first come first serve basis.

To receive a tax credit on your 2022 tax return you must receive a tax credit certificate from New York State before December 31, 2022. Tax credits can be issued for the 2023 tax year, but program funds may be expended before that time.

become an even better chiropractor and teacher for your patients.

- To help you reach your continuing education goals, you were able to attend our annual CE's and Coffee. This year's amazing speakers included surgeons from NSPC and orthopedic doctors from OALI. It provided a unique opportunity to chat with medical experts in a casual setting and be able to engage with them on a professional level.
- We continued supporting the sponsors who support us, including: NSPC, Stand Up MRI, OALI and Spine Care of Long Island
- I could go on about what we have achieved in 2022 but the biggest accomplishment, for me, personally, was to deepen my relationship with you all, to listen and learn from you and to be inspired by District 7 and its role in the advancement of chiropractic on Long Island and in New York. As always, we are here to help answer questions you may have regarding billing questions, or insurance dilemmas, whatever issue you are having, District 7 is here to help.
- I hope to see you all and enjoy time together at our annual Holiday Party which will be held on December 21 at 8pm at Mezza Luna in Hauppauge. Please respond to the invite you received or contact any one of your officers to RSVP. I look forward to seeing you there!

Best,

## Today's thoughts are taken from "Illusions" by Richard Bach

You are  
never given a wish  
without also being given the  
power to make it true.

You may  
have to work for it,  
however

### **Freditorial:**

Two questions worth re-visiting time and again are: (1) what would I attempt if I knew it was impossible to fail?, and (2) since ALL things are possible with God, and since I am ONE with God, why am I not taking action on that Big Dream?

The Big Dream or desire is a possibility seeking expression, and that specific desire found YOU for a reason. So, what's it going to be? (p.s. Tuesday is a great day to set a HUGE GOAL!)
